Screening Logs Complete

Great job to the follow site on recently completing screening logs: Detroit Receiving Hospital, Hennepin County Medical Center, OSU Wexner Medical Center, UCSD Medical Center— Hillscrest Hospital, University of Iowa Hospitals & Clinics, University of Maryland Medical Center, & University of Kentucky Hospital!

HOBIT Enrollment by site through 1/10/2020

HOBIT Updates

Subject Material—GOSE Schedule of Assessments Handout

The cIRB has approved a handout that can be provided to the participant/ LAR for reminders of when they will need to complete the GOSE assessments. The handout and approval letter can be found on the HOBITtrial.org Toolbox, under IRB. Thank you to Maryland for the great idea!

MOP Updates

4.6.1 Conducting the GOSE Assessments

Detroit

For GOSE assessments, we wanted to clarify the language we had in the MOP. Interviews must take place with the enrolled participant, as well as a caregiver. The caregiver can be a person who is close to the participant who can provide more useful information. We want to be clear that the caregiver does not necessarily have the be the LAR. Please see section 4.6.1 page 17 for more information.

3 Exception From Informed Consent for Emergency Research

New section/language added for EFIC. Please see page 11 for more information.

GOSE Quarterly Meeting

St. Mary's

The December 2019 GOSE Quarterly Meeting slides and video are now available on the HOBIT website, under the Education and Training tab.

HOBIT HOTLINE—Call Anytime! We want to encourage all sites to call the HOBIT hotline anytime you have

questions about an eligible patient. The line is always open, 24/7.
