## Detroit Receiving — Released to Enroll

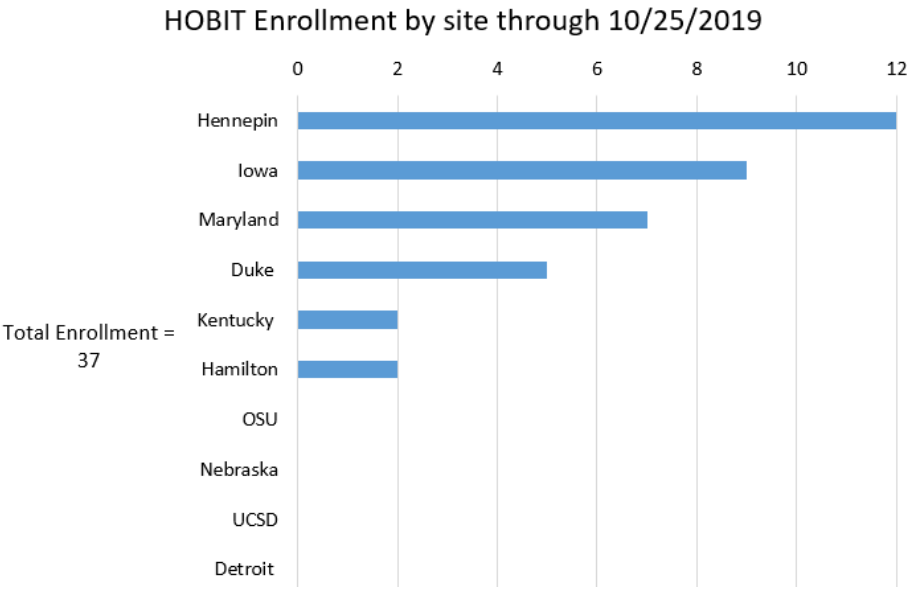
Great job to Detroit on being released to enroll!

## Duke — Participant Enrolled

Nice work by the Duke HOBIT team for recently enrolling a participant!

## St. Mary's — eDOA Complete

Great job to St. Mary's for completing their eDOA & 1572.



## HOBIT Updates

**EFIC Virtual Investigator Meeting**

Please **save the date** for the HOBIT EFIC Virtual Investigators Meeting which will be held on **Friday, November 22nd from 10:00am – 12:00pm ET**; and on **Friday, November 22nd from 2:00pm – 4:00pm ET**.

The FDA has recently approved HOBIT to enroll subjects under EFIC. This will be an interactive opportunity to learn about HOBIT EFIC requirements, protocol adherence, review important HOBIT topics, and facilitate discussion among study teams.

We are offering two different meeting times to accommodate schedules. However, you are only expected to attend one of the meetings. **Both the PI and Primary Study Coordinator or site designee from each site are required to attend one of the meetings.** Others are welcome to attend as well. Please register for the meeting with the link below by copying and pasting into a browser:

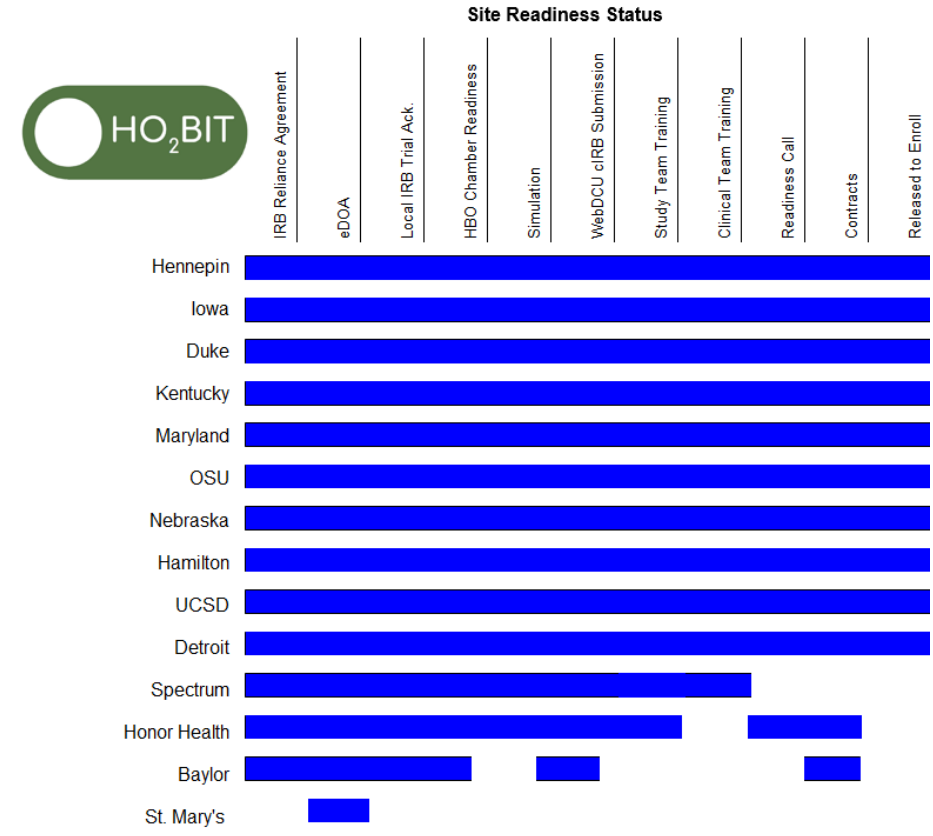
**Monthly Follow-up Interview**


The site study coordinator or designee will hold monthly follow-up phone calls with enrolled subjects and LARs during their time of enrollment. These calls are critically important to maintain contact with the participants and LARs in order to obtain the 180 day primary outcome GOSE and avoid lost to follow up. A summary of the calls should be documented in the Monthly Follow-up Log in WebDCU under the Study Progress tab. See MOP 3.61. page 18 for more detail.
