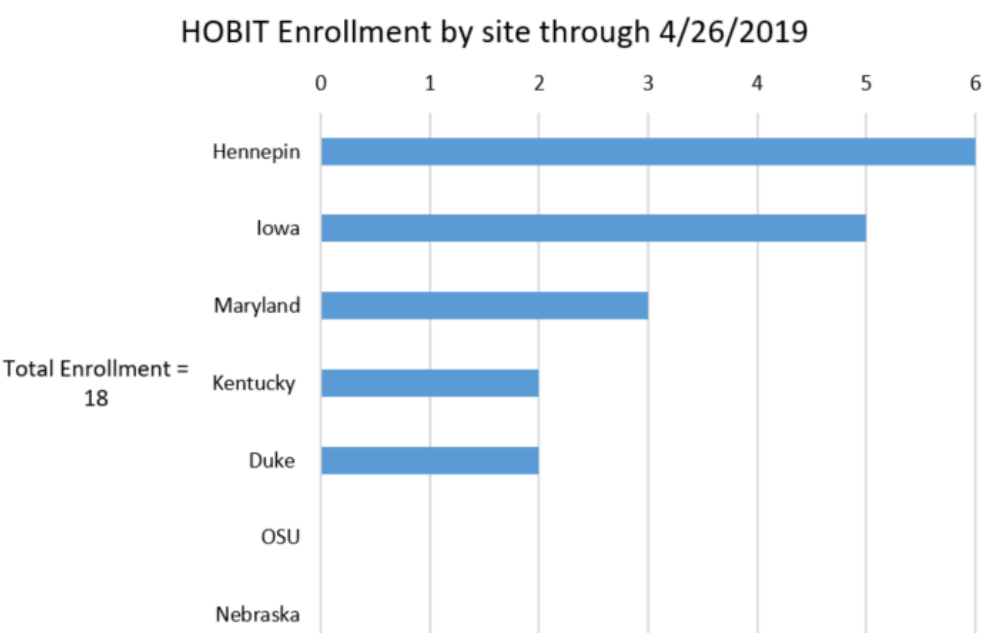
Hennepin & Iowa—GOSE Assessments Complete

Great job to Hennepin and Iowa for recently completing GOSE assessments!

UCSD—Simulation Complete

Congrats to UCSD on completing their simulation video!



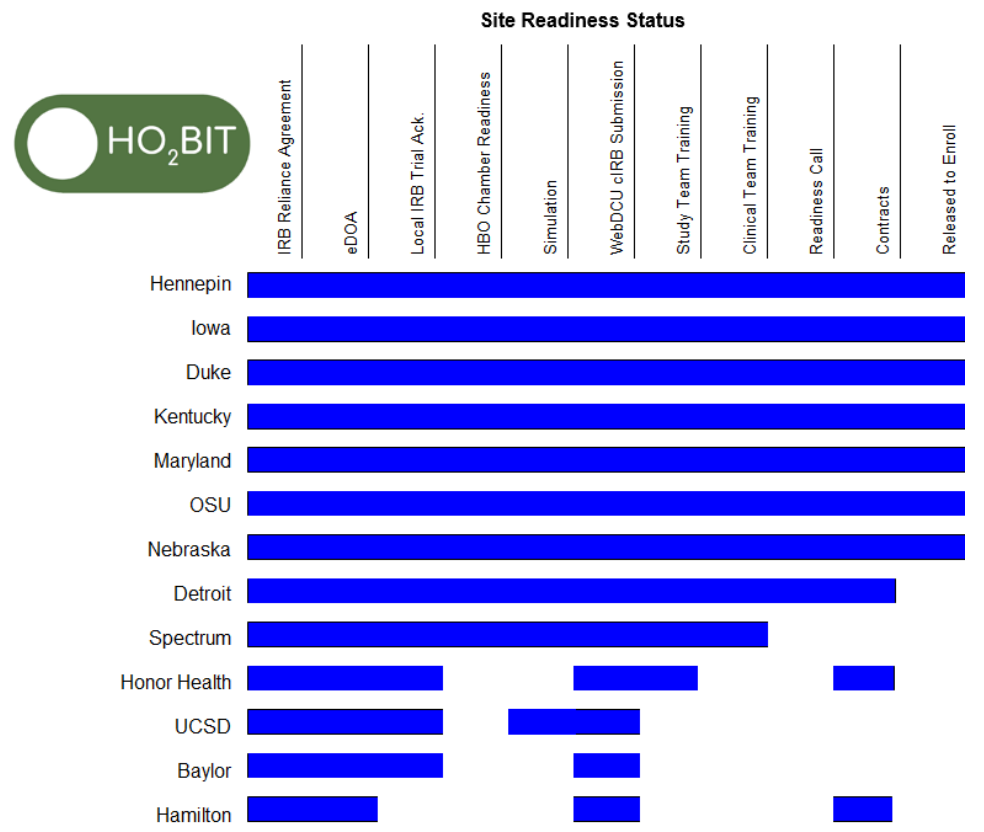
HOBIT Updates

Virtual Investigator Meeting

Please save the date for the HOBIT 2019 Virtual Investigators Meeting which will be held on June 11th from 11:00am – 12:30pm ET; and on June 13th from 3:00pm – 4:30pm ET. This will be an interactive opportunity to review important HOBIT topics and facilitate discussion among study teams. Emphasis will be on protocol adherence, screening, and ongoing training of clinical staff. We are offering two different meeting times to accommodate schedules. However, you are only expected to attend one of the meetings. The PI and Primary Study Coordinator from each site are required to attend at one of the meetings. Others are welcome to attend as well. Please register for the meeting via the link: **Bit.ly/HOBITmeeting2019** (copy and paste into browser)

cIRB Approved GOSE Video Recording Script

To ensure that GOSE assessments are performed uniformly across study sites, each blinded assessor should audio or video record their GOSE assessments. These assessments should be recorded until notified otherwise by the HOBIT outcomes team. Please obtain verbal permission from the subject/LAR prior to beginning the audio/video recording. We recommend that prior to the start of the recording, the GOSE assessor uses the cIRB approved GOSE Video Recording Script, available in the HOBIT website Toolbox. Please see updates to the MOP Section 3.6.1, Page 16 for more information.

Quarterly GOSE Meeting


We will hold our 1st GOSE Quarterly Meeting in June or July. This will be an opportunity for our team to provide support and answers questions that GOSE assessors may have with regards to performing GOSE assessments.
