HOBIT NEWS

Hyperbaric Oxygen Brain Injury Treatment Trial Newsletter

Reminder:

The next NETT/SIREN Study Coordinator Meeting is August 7th at 1pm EST

Way to go Kentucky

Kentucky recently held their readiness call and submitted their simulation video!

Great job Duke

Duke has scheduled their readiness call!

Thank you OSU

OSU has scheduled their readiness call!

HOBIT Updates

New Resources in the HOBITTRIAL Toolbox

The following resources were updated in the Toolbox under Chamber Resources and Readiness Checklist:

Hyperbaric Safety Pause Checklist

Readiness Checklist (including tracked changes)

New Simulation Video Example

Detroit Receiving shared their simulation video with us. It's posted in the Toolbox under Clinical Resources >Simulation Video Examples.

New Regulatory Document in WebDCU

We have added a new regulatory document. Sites will need to provide the "local IRB Trial Acknowledgment Submission" This is a Submission documentation, either a (screenshot, email, etc.) that shows that the local IRB or the local Human Research Protection office has been sent an administrative review or ceding review or application for the HOBIT study. Please provide documentation of when the local cede review has been submitted. This is currently available for uploading and the detailed instruction have been added to the HOBIT Parameters Document.
