HOBIT NEWS

Hyperbaric Oxygen Brain Injury Treatment Trial Newsletter

Reminder:

The next NETT/SIREN Study Coordinator Meeting is August 7th at 1pm EST

Congrats to Hennepin

Hennepin County Medical Center has enrolled the 1st participant into the HOBIT Trial!

Great job Duke

Duke held their readiness call and are close to being released to enroll!

Thank you Kentucky

Kentucky held their readiness call!

HOBIT Updates

New Resources in the HOBITTRIAL Toolbox

The following resources were updated in the Toolbox under Chamber Resources and Readiness Checklist:

Hyperbaric Safety Pause Checklist

Sim video checklist

New FAQs Posted

There are new FAQs posted on the FAQs page. New questions and answers to: Site Monitoring, Screening and Inclusion/exclusion, HBO treatment, WebDCU, Payments and Milestones, and Equipment Please take time to review them carefully and share with your team members.

Protocol Training for GOSE Assessors—no longer required

We have updated the requirements for HOBIT protocol training for GOSE assessors; HOBIT protocol training is no longer required for those with only the responsibility to perform the GOSE. Study personnel who have the responsibility to perform GOSE in addition to other tasks, will be required to complete HOBIT protocol training. This has not yet been reflected in webDCU, but we anticipate it will be updated in the next few days.
