April 22nd at 12pm ET

+NETT/SIREN Study Coordinator Call

May 5th at 1pm ET

EFIC Local IRB Notification Letter

Thank you to OSU for submitting the EFIC Local IRB Notification Letter!

Screening Continues!

Thank you to all the sites that continued to screen for potential subjects during March. Contributors to the 34 subjects screened are Minnesota, Maryland, Duke, Kentucky, Wayne, UCSD and OSU. Keep it up! This information is important!

HOBIT Updates

Administrative Preparations are conducive to off-site working that may be required during the COVID19 pandemic. We encourage all sites where work activity has not been prohibited, to continue with tasks that support regulatory and administrative preparations. SIREN will continue to review and process eDOAs, people and site regulatory documents, CIRB forms and schedule site readiness calls.

EFIC CC and PD Activities should be continued where possible. SIREN will work with sites to help come up with creative solutions to continue to conduct meaningful engagements with the community consistent with the existing EFIC plans.

GOAL: All sites with IRB approved EFIC activities (CC and PD) by the time we re-open sites for trial enrollment.

Consider the following:

- Investigators can join in on existing meetings of community groups or conduct individual interviews with community stakeholder leaders by teleconferencing.
- Focus groups can be conducted through teleconferencing.
- Optimized use of Twitter, Facebook, and other social media platforms can be used to generate interactions and obtain valuable feedback.
- Outsourcing community consultation to a survey vendor to perform random digit dialing surveys
- Booth events are not practical at this time and will have to be replaced with new activities in sites' lists of planned events.
- Most methods of public disclosure are not in person so have no significant barriers.

Innovate, and then share successes peer to peer!
