The SIREN OHSU Hub Scholar Program in Emergency Care Research

We are excited to announce the launch of our new training program. As we have mentioned in past newsletters, one new piece of the SIREN renewal was the addition of funding for the creating and support of a physician-scientist training program administered by each award hub network. We have been working to create our program and recruit our first class of scholars. We are working with sites across our network to identify candidates, review the program plan, and create the Training Advisory Council (TAC). We will post and send post and send more information as we launch this program. Below are the program goals and some general information.

Goals

The SIREN OHSU Hub Scholar Program capitalizes on the unique partnerships across multiple sites and opportunities to learn emergency care research within the SIREN network. The 2-year program is designed to interface with existing research training programs (e.g., fellowships, career development awards). The *programmatic goal* is to produce highly trained physician-scientists in emergency care research with a focus on clinical trials. The *primary scholar goal* is submission of an individual K or R federal grant application as PI (with funding secured shortly after completion of the program). The *career development goals* are: 1) a research training experience, including didactic education and other educational activities; 2) a multi-disciplinary mentored research experience focusing on a scholar-driven project and academic faculty development; and 3) incorporation of scholars into SIREN network activities, trials, and workgroups.

Eligibility & Timeline: We will select two physician-scientist scholars per year (total 10 scholars over the 5-year SIREN grant), with a target of ≥ 1 scholar per site across all OHSU Hub network sites. Eligible scholars include fellows and faculty at the Clinical Instructor or Assistant Professor level from any discipline involved in emergency care research. Training duration will be two years per scholar

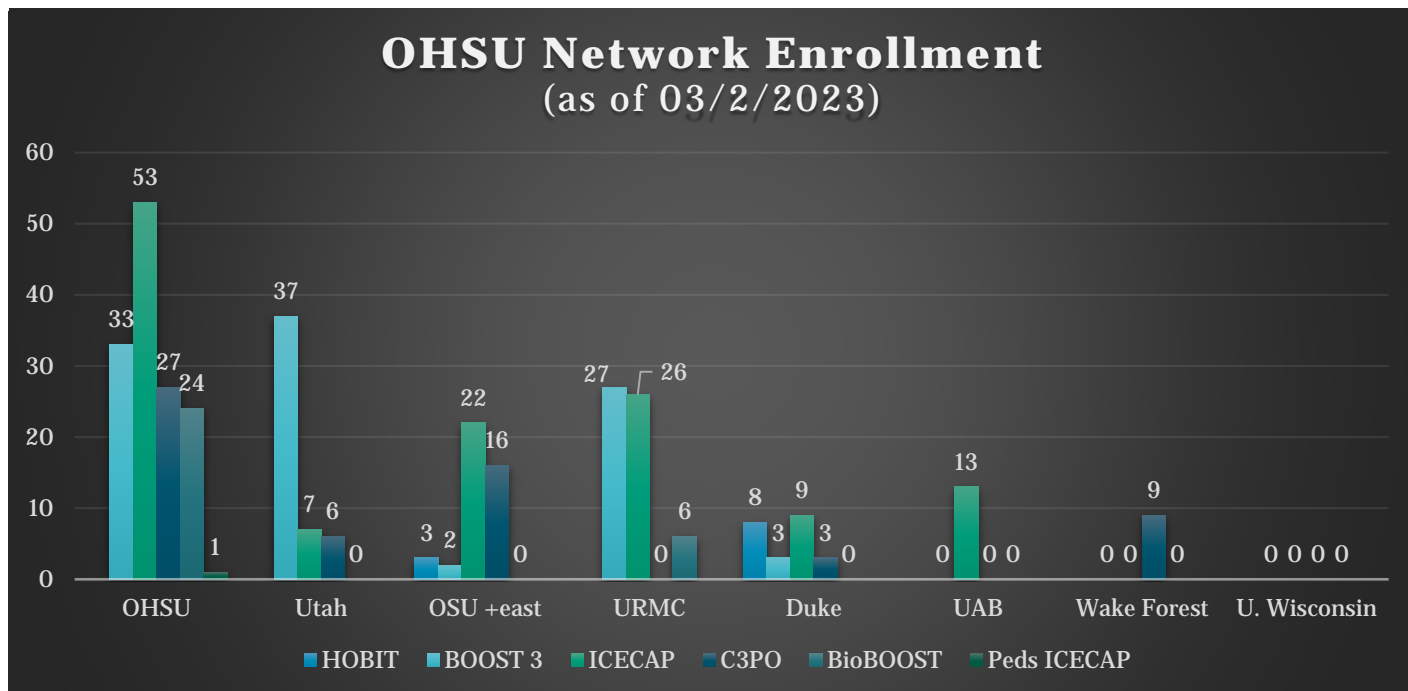

NETWORK NEWS

Spring is a time of renewal. Hub Project Manager Jenny will be reaching out to each SIREN site PI to find time for a site check in as we start this new project cycle. We'll be discussing how best the hub can support your site and teams. Please be thinking about what has gone well at your site, what could be better, and how we might help better support you over the next 5 years.

We are actively searching for additional network sites. If you know a colleague at an unaffiliated site potentially interested in joining us, please let us know!

Total OHSU Network enrollment: 335

Our new project year is off to a great start. We enrolled 3 subjects in the month of February across our sites, great job team!

Important Reminder: The SIREN award is co-funded by the National Institute of Neurological Disorders and Stroke (NINDS) and National Heart, Lung and Blood Institute (NHLBI). All publications, posters, oral presentations at scientific meetings, seminars, and any other forum which results from this co-funded research and are presented must include a formal acknowledgment of the NINDS/NHLBI support, citing the NINDS grant number as identified on this award document. Our OHSU Network Award # is: U24NS100657

SOP SPOTLIGHT

As a part of the new SIREN award notice, we help facilitate the DCC efforts to distribute the SIREN general SOPs and training for our spoke sites.

Your site can access all SIREN SOPs at any time here: <https://siren.network/nett-resources/standard-operating-procedures>. We will also be spotlighting a monthly SOP in our newsletter for your review.

This month, please review the [Electronic Informed Consent](#) SOP

BOOST 3 NEWS & UPDATES

- BOOST 3 enrollments: 461 (Target enrollment 1094)
- **OHSU Network Enrollment: 102**
- **Congrats to Utah for enrolling their first subject after their enrollment pause.** After having to temporarily pause enrollments at their site, Utah is back in business and still 3rd in the country for enrollments (and only 1 enrollment behind 2nd place!)
- Bio-BOOST enrollments: 83; **OHSU Network: 30.**
- ELECTROBOOST enrollment: 24 **OHSU Network:0**
 - OHSU's Electro-BOOST team is ready to enroll. Hoping for their first subject soon!

ICECAP NEWS & UPDATES

- ICECAP Enrollments: 660 (Goal: 1800)
- **OHSU Network Enrollment: 130**

PEDS ICECAP & UPDATES

- P-ICECAP Enrollments: 46 (Goal: 900)
- **OHSU Network Enrollment: 1**
- CCC office hours are Mondays from 3-4 EST, and Carol and/or Moni will be available.
 - The link is: <https://umich.zoom.us/j/96979875686> Passcode: 758039
- P-ICECAP Steering Committee meetings are held on the third Thursday of the month. Here is the link: <https://umich.zoom.us/j/95238964868?pwd=QjNHUjZvM2RCOU5LYkxTYWhEc2E3QT09>

- If you have a question for the CCC, it is best to email this address: picecap-contact@umich.edu. This goes to multiple people and will get you the quickest and most accurate answer.

CLINICAL TRIALS METHODOLOGY COURSE 2023

The Clinical Trials Methodology Course is excited to announce the schedule for the 2023 webinar series. Please see our [website](#). All CTMC webinars are open to anyone who is interested - not just the enrolled course

2023 Webinar Schedule (Most webinars are held on the 2nd and 4th Fridays at 12 PM ET)

participants. The first webinar in the series will be “Designing Meaningful Early Phase Clinical Trials,” presented by the course directors. Please feel free to invite your colleagues.

March 10: Designing Meaningful Early Phase Clinical Trials – William Meurer, MD, MS, Laurie Gutmann, MD, Robin Conwit, MD, Chris Coffey, PhD, and Roger Lewis, MD, PhD

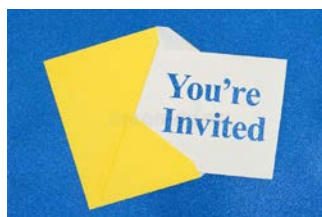

March 24: Specific Aims - Presented by Jordan Elm, PhD and Robert Silbergleit, MD

April 14^t Outcome Measures – Presented by Harold Adams

April 28: What to Know About Sample Size - Presented by Sharon Yeatts, PhD

May 12: INDS Health Disparities & Global Health Agenda / Common Data Elements - Presented by Carolina Mendoza -Puccini, MD & Richard Benson, MD, PhD

May 26: Biomarkers – Presented by Tatiana Foroud, PhD, and Jeff Dage, PhD

SIREN DEI WORKGROUP

New Workgroup! SIREN Diversity, Equity & Inclusion Working Group.

Mission: To improve the diversity, equity, and inclusion of emergency department-based clinical trial process and trial experience for historically marginalized and underrepresented populations

Initial Goals

- Promote collaborations on DEI initiatives within SIREN
- Determine the data and context preferred for a public posting of trial accrual & decline by race, ethnicity, gender (or more?). How do we collect, analyze, and use this data?
- Determine which diversity data to collect about network staff and investigators. How do we collect, analyze, and use this data?

Meeting Time: 3-4pm EST on third Tuesdays of the month. First meeting will take place on 3/21/23 from 3-4pm EST.

Membership: All are welcome!

Sign Up: Please complete this [Google form](#)* and select the DEI Working Group

*Reminder – everyone is encouraged to sign up for at least 1 SIREN workgroup. Learn more about a topic you are passionate about, opportunities abound! You can use this google form link to sign up for any workgroup that interests you!
