NETWORK NEWS

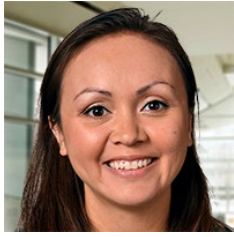

Fall is around the corner. We hope you all had time to rest, relax and recharge over the summer, because despite the often busy travel schedules of summer, our network has continued its' strong performance across trials. Our network sites have enrolled 9 subjects in BOOST 3; 4 subjects in ICECAP; and Strong Memorial – URMC has enrolled 3 subjects to date in Electro BOOST. Outstanding work all!

Total OHSU Network enrollment: 381

HONE-IT

The OHSU SIREN Network Scholar Training Program in Emergency Care Research

Congratulations to Michelle Nassel MD, PhD, who was selected to be our first HONE-IT scholar! Dr. Nassel is an Assistant Professor in Emergency Medicine at The Ohio State University. Her research for her HONE-IT proposal focuses on defining real-time biomarkers of resuscitation, specifically Thoracic Impedance, in relation to resuscitation interventions and outcomes. Dr. Nassel started on 8/1/2023 and is anticipated to conclude her time with HONE-IT on 7/31/2025. Please join us in welcoming her to this new role & program in our network!

STANDARD OPERATING PROCEDURE (SOP) SPOTLIGHT

As a part of the new SIREN award notice, we will help facilitate the DCC efforts to distribute the SIREN general SOPs and training for our spoke sites.

Your site can access all SIREN SOPs at any time here: <https://siren.network/nett-resources/standard-operating-procedures>. We will also spotlight a monthly SOP in our newsletter for your review.

This month, please review the [Human Subjects Protection and Good Clinical Practice Training SOP](#)

BOOST 3 NEWS & UPDATES

Brain Oxygen Optimization in Severe Traumatic Brain Injury Phase 3

- BOOST 3 enrollments: 513; 47% of target (Target enrollment: 1094)
- **OHSU Network Enrollment: 119**
- Bio-BOOST enrollments: 109; **OHSU Network: 35**
 - Congrats to Utah for 2 recent enrollments!
- ELECTROBOOST enrollment: 53 **OHSU Network: 3**

ICECAP NEWS & UPDATES

Influence of Cooling Duration on Efficacy in Cardiac Arrest Patients

- ICECAP Enrollments: 766; 42.5% of target (Target enrollment: 1800)
- **OHSU Network Enrollment: 150**
- UPCOMING DSMB Meeting:

*The Data and Safety Monitoring Board (DSMB) for the ICECAP study has scheduled a meeting to discuss the progress and data for the trial. In order to prepare for this meeting, we are asking that all subject data is up-to-date in WebDCU™ by September 28th, for the upcoming database freeze for the DSMB meeting. Please address any outstanding data, unresolved data clarification requests (DCRs), and open rule violations in WebDCU™ prior to the scheduled database freeze. Please note that you will still be able to access WebDCU™ during the database freeze, however, we need to ensure the data is as up-to-date as possible. DCC data checks will take place in the next 2-3 weeks for immediate issues that need resolved, and will result in additional DCRs written as well as email follow up. **Please remember to check your [Alerts] tab weekly.** If you have any questions or concerns please reach out to Peyton or Sara (peyton@musc.edu, butlers@musc.edu). Thank you for your continued hard work on the ICECAP study.*

- **POST-ICECAP** (ancillary study of long term outcomes on ICECAP eligible subjects) – the NOGA has been received. Additional information is expected in fall.

PEDS ICECAP NEWS & UPDATES

Pediatric Influence of Cooling Duration on Efficacy in Cardiac Arrest Patients

- P-ICECAP Enrollments: 87 9.7% (Goal: 900)
- **OHSU Network Enrollment: 2**
